DETAILED ACTION

Allowable Subject Matter

Claims 12-17 and 19-21 are allowed.

The following is an examiner's statement of reasons for allowance: Dougherty does not disclose nor suggest a first calculation device or process that calculates the amount of low frequency correction that is corrected by a low frequency correction device according to the ratio of the low frequency component extracted by an extraction device and an adjustment amount, as required by claims 12 and 20. Dougherty discloses a noise estimation system for a vehicle audio system comprising low and high frequency correction devices 114L and 114H, however, there is no suggestion of calculating the amount of low frequency correction based on the ratio of a low frequency component extracted by an extraction device (microphone and low pass filter) and an adjustment amount. While Kato discloses an extraction device (microphone 20 and low pass filter 22) and calculates the amount of low frequency correction based on the ratio of the output from the extraction device and an adjustment amount, there is no disclosure of a second calculation device that calculates the amount of high-frequency correction that is corrected by the high frequency correction device according to detected vehicle speed, as also required by claims 12 and 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2644

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian T. Pendleton whose telephone number is (571) 272-7527. The examiner can normally be reached on M-F 7-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vivian Chin can be reached on (571) 272-7848. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
